2013-2014 36TH EDITION

Your Design Career is Waiting

A career in the exciting world of design requires both creativity and knowledge. Hone your creativity and get the skills you need to begin the design career of your dreams in the surprisingly personal online Degree and Certificate programs at Sessions College.

GRAPHIC DESIGN

Learn to translate ideas into images, make brands inviting and information accessible in a Graphic Design program.

WEB DESIGN

Balance business goals with the needs of Web users as you learn creative and technical skills in a Web Design program.

DIGITAL MEDIA

Learn to combine digital design with video, animation, and 3D modeling to engage viewers in a Digital Media program.

CREATIVITY STARTS HERE

Schedule your personal tour:

The Arizona College & Career Guide is published for informational purposes only so that citizens of Arizona may be aware of the postsecondary educational opportunities available throughout the state. Every effort is made to contact organizations which claim status as an Arizona postsecondary institution. Omission of any postsecondary institution, financial assistance, or instructional program is unintentional, or due to the lack of response to the Commission requests. The course offerings, course length, and costs are those in effect at the time the Commission conducts its survey and subject to change throughout the academic year.

The Arizona Commission for Postsecondary Education makes no attempt to approve, recommend, rate, accredit, or otherwise endorse the institutions listed in this directory.

Prospective students should contact the institution of their choice to obtain the most current information.

WELCOME

The Commission for Postsecondary Education (ACPE) is required by statute to compile and disseminate information to the public regarding postsecondary education opportunities in this state (A.R.S. §15-1851 B.4). This publication is a comprehensive guide of educational opportunities in the state of Arizona.

ACPE's mission is to expand access and increase success in postsecondary education for Arizonans. Find out more about the ACPE by reading our 2013 fact sheet below:

Student Financial Assistance Programs

- Serve as National Association of State Student Grant and Aid Programs Entity for Arizona
- Administer more than 3,700 state/federal student grants representing more than \$3.5M annually including AZLEAP, MSSE, CAC Last Stretch Scholarship, PFAP and PEG grants for students attending both public and private institutions.
- Administer the Arizona Family College Savings (529) Program which holds \$707 million in assets, representing more than 65,000 accounts. Accounts are managed by three trusted and experienced financial institutions.

Forum for All Sectors of Postsecondary Education

- Serve as the forum for private and public postsecondary education leaders to identify common problems and opportunities focused on students.
- Provide higher education venues, such as the Developing Arizona's Human Capital conference where educators, policy makers, and business leaders come together to focus on higher education issues.
- Sponsor the Arizona Minority Education Policy Analysis Center (AMEPAC) to foster dialogue through issue-based research studies. Publications include "To Learn and Earn: Arizonans' Experiences Competing in the Race for Good Jobs" the "Arizona Minority Student Report", 2013, 2009, 2007, 2005 & 2003 and "The Road to Higher Education: Closing the Participation Gaps for Arizona Students", 2006.
- Raise approximately \$190,000-\$250,000 in donations, sales, and grants to fund college-going programs and publications annually.
- Host college access websites serving 138,578 visitors annually including:

www.azhighered.gov
www.azcan.gov
www.az529.gov
www.azgrants.gov
www.amepac.org
www.pay4collegearizona.gov
www.collegegoalsunday.com

College Access Programs and Publications

(The Commission is legislatively mandated to support un-served and under-served populations)

- Coordinate the College Goal Sunday Financial Literacy Aid Initiative. Where Arizona's students and parents will take the first critical step in financial aid (completing the FAFSA) assisted by more than 300 financial aid professionals at sites statewide.
- Sponsor "Pathways to Postsecondary Education Awards" to encourage best practices in college access.
- Offer students and parents print and web-based information such as the *Rapid Guide to Financial Aid* and the *Arizona College and Career Guide*.

ACCREDITATION

Accreditation is the primary means of assuring and improving the quality of higher education institutions and programs in the United States. It is a process of external quality review used by higher education to scrutinize colleges, universities and higher education programs for quality assurance and quality improvement. Accreditation in the United States is more than 100 years old, emerging from concerns to protect public health and safety and to serve the public interest. In the U.S., accreditation is carried out by private, nonprofit organizations designed for this specific purpose. External quality review of higher education is a non-governmental enterprise.

There are three types of accreditors:

- Regional accreditors: Accredit public and private, nonprofit and for-profit, two- and four-year institutions. This is a comprehensive review of all institutional functions.
- National accreditors: Accredit public and private, nonprofit and for-profit institutions, frequently single-purpose institutions, including distance learning colleges and universities, private career institutions and faith-based colleges and universities.
- Specialized and professional accreditors: Accredit specific programs or schools including law schools, medical schools, engineering schools and programs, and health profession programs.

The Purposes of Accreditation

Accreditation serves the following purposes:

- Assuring quality. Accreditation is the primary means by which colleges, universities and programs assure quality to students and the public. Accredited status is a signal to students and the public that an institution or program meets at least minimal standards for its faculty, curriculum, student services and libraries. Accredited status is conveyed only if institutions and programs provide evidence of fiscal stability.
- Access to federal funds. Accreditation is required for access to federal funds such as student aid and other federal programs. The federal government and accreditors sustain a cooperative relationship whereby government relies on accreditors to confirm the quality of institutions and programs in which students enroll using federal student aid funds. Federal student aid funds are available to students only if the institution they are attending is accredited by a recognized accrediting organization.
- Easing transfer. Accreditation is important to students for a smooth transfer of courses and programs among colleges, universities and programs. Receiving institutions take note of whether or not the credits a student wishes to transfer have been earned at an accredited institution. Although accreditation is but one among several factors taken into account by receiving institutions, it is viewed carefully and is considered an important indicator of quality.
- Engendering employer confidence. Accreditation status of an institution or program is important to employers when evaluating credentials of job applicants and when deciding whether to provide tuition support for current employees seeking additional education.

Recognized Accrediting Organizations

This chart lists regional, national faith-related, national career-related and programmatic accreditors that are or have been recognized by the Council for Higher Education Accreditation (CHEA) or the U.S. Department of Education (USDE) or both. Organizations identified by (+) are recognized; (-) indicates those not currently recognized. A (*) identifies accrediting organizations that were formerly recognized.

CHEA-recognized organizations must meet CHEA eligibility standards (www.chea.org). Accreditors exercise independent judgment about whether to seek CHEA recognition. For USDE recognition, accreditation from the organization is used by an institution or program to establish eligibility to participate in federal student aid or other federal programs (www.ed.gov/about/offices/list/ope/index.html). Some accreditors cannot be considered for USDE recognition because they do not provide access to federal funds. Other accreditors have chosen not to pursue USDE recognition.

Because CHEA affiliation and USDE recognition depend on a range of factors, readers are strongly cautioned against making judgments about the quality of an accrediting organization and its institutions and programs based solely on CHEA or USDE status. Additional inquiry is essential. If you have questions about the CHEA or USDE recognition status of an accreditor, please contact the accrediting organization. Please visit the CHEA Website at: www.chea.org

FINANCIAL AID

Federal Student Financial Aid

Students and their families sometimes mistakenly think that they don't qualify for financial aid and prevent themselves from receiving aid by failing to apply. There are a variety of federal aid programs in which students may qualify. The first critical step in applying for financial aid is to complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov. The application is available January 1st and it is recommended that in order to receive maximum consideration for all aid you submit the FAFSA by the end of February. A new FAFSA can be submitted through June 30, 2014 and corrections to a FAFSA can be submitted through September 20, 2014. In addition, some merit based aid such as scholarships require the FAFSA. The FAFSA form is free, so take advantage of the opportunity it may offer you. You risk nothing if you complete and submit the form, and you may find that you qualify for financial assistance that you never expected. Additionally, have a list of postsecondary institutions that you have either applied to or think you will apply to. This information is required on the FAFSA.

Financial aid is money to help pay for your postsecondary education. Such aid can come from a variety of sources like the state where you live, the U.S. federal government, the postsecondary institution you attend, or nonprofit or private organizations. Additionally you should think about what you can do to lower your costs when you go to college. Institution cost is an important factor because the cost can vary significantly from institution to institution. You will want to ensure the cost of your institution is reasonable compared to your potential career earnings after you graduate. Remember any institution that participates in federal student aid programs is required to provide information on its Cost of Attendance and to offer a net price calculator which will give you an idea of how much the program costs after subtracting any financial aid.

Furthermore, most students receive some kind of financial aid and there are many sources of financial aid that will help cover your costs like grants, scholarships, work-study, loans, and tax benefits.

- **Grants and Scholarship:** Free money which usually does not have to be repaid. Occasionally some grants may have to be paid back, for example, if you withdraw and have not completed the enrollment period. Scholarship searches like CareerOneStop (www.careerinfonet.org/scholarshipsearch/) and FastWeb (www.fastweb.com) may be helpful.
- **Work-Study:** Provides part-time work while enrolled which helps pay your expenses. Work-study programs are administered through the institution so check with your financial aid department to see if the institution participates in the program.
- **Loans:** Money you borrow and must pay back, some loans include interest or may have loan forgiveness options which require certain criteria to be met before the loan can be forgiven. Make sure when taking out any loan that you fully understand who is making the loan and the terms and conditions of the loan. Loans can come from state, federal, or private sources. The federal programs consist of the William D. Ford Federal Direct Loan Program and the Federal Perkins Loan Program. It is important to understand a loan is a legal obligation and it is your responsibility to be a responsible borrower.
- **Tax Benefits:** The IRS provides tax benefits like the American Opportunity Credit and the Lifetime Learning Credit. For further information read the IRS Publication 970, Tax Benefits for Education.

For further information regarding federal financial aid programs visit www.studentaid.ed.gov and click on the "Types of Aid" or call the Federal Student Aid Information Center: 1-800-4-FED-AID (1-800-433-3243). Additional resources like the FAFSA4Caster (fafsa.ed.gov/FAFSA/app/f4cForm), College Scorecard (www.whitehouse.gov/issue/education/higher-education/college-scorecard), and CollegeNavigator (nces.ed.gov/collegenavigator) may be helpful in your research for financial aid.

Arizona State Financial Aid

The following financial aid programs are administered by the Arizona Commission for Postsecondary Education:

ARIZONA LEVERAGING EDUCATIONAL ASSISTANCE PARTNERSHIP (AZLEAP)

The Arizona Leveraging Educational Assistance Partnership (AZLEAP) Grant is a program that establishes a state and institutional partnership to provide student financial assistance in the form of need-based grants to low-income students who have demonstrated substantial financial need, enabling students to attend postsecondary institutions in the State of Arizona. The AZLEAP Grant is awarded by each participating institution to undergraduate Arizona residents who are attending a participating eligible Arizona postsecondary education institution. Students who are interested may inquire about the AZLEAP grant at the financial assistance office at their institution.

MATH, SCIENCE, SPECIAL EDUCATION TEACHER LOAN FORGIVENESS PROGRAM (MSSE)

The MSSE Program is a student-centered, need-based forgivable loan designed to financially support and to encourage Arizona resident junior or senior college students to enter into the teaching profession and teach in a public school in Arizona. The maximum forgivable loan is \$7,000 per academic year for up to three years. Students must enter into an agreement with the ACPE to teach in an Arizona public school. Additionally, students must sign a promissory note acknowledging the conditions of the loan and promising to repay the loan plus interest if teaching obligation is not met.

COLLEGE ACCESS CHALLENGE LAST STRETCH SCHOLARSHIP

The College Access Challenge Last Stretch Scholarship is a need-based scholarship designed to assist college students who have completed at least 60 college credit hours to achieve their baccalaureate degree at any regionally or nationally accredited institution. Eligible students must have substantial financial need (Pell Grant eligible) as determined by the Free Application for Federal Student Aid (FAFSA). One half of the program funds will be awarded to eligible students seeking a bachelor degree in any program of study. One half of the funds will be awarded to eligible students enrolled in an eligible STEM Program (Science, Technology, Engineering and Math). The maximum grant award for the academic year is \$2,000 based on full-time enrollment.

POSTSECONDARY EDUCATION GRANT PROGRAM (PEG)

PEG is a student-centered, non-need based grant (forgivable loan) designed to financially support and encourage students to attend a private postsecondary baccalaureate degree granting institution in Arizona. The maximum grant is \$2,000 per year for up to four years and qualified expenses are limited to tuition, books and fees. The funds must be repaid to the ACPE if the student fails to achieve a bachelor's degree in five years.

PRIVATE POSTSECONDARY EDUCATION STUDENT FINANCIAL ASSISTANCE PROGRAM (PFAP)

PFAP is a student-centered, need-based grant (forgivable loan) designed to financially support and encourage Arizona community college graduates to attend a private postsecondary baccalaureate degree granting institution in Arizona. The maximum grant is \$2,000 per year for up to two years and qualified expenses are limited to tuition, books and fees. The funds must be repaid to the ACPE if the student fails to achieve a bachelor's degree in three years.

Eligibility requirements, applications and participating institutions for all the above mentioned Arizona State Financial Aid can be found online at www.azgrants.gov.

Institutional Financial Aid

Additionally, each school may have institutional student aid available. For additional information about institutionally sponsored student financial aid, contact the financial aid administrator at the school you are considering. He or she can tell you about all financial aid programs available at that institution. Also, visit the school's financial aid page on its website for more information.

PUBLIC UNIVERSITIES

The Arizona Board of Regents is the governing board for the state's public universities: Arizona State University, Northern Arizona University, and the University of Arizona. The Board provides policy guidance in such areas as: academic and student affairs; financial and human resource programs; student tuition, fees, and financial aid programs; university capital development plans; strategic plans; legal affairs; and public and constituent outreach.

The Board consists of twelve members, eleven voting and one non-voting. This includes the Governor and Superintendent of Public Instruction as ex-officio members, each serving while they hold office, and two Student Regents. Also at the table, and an essential partner with the Board of Regents, is the chair of the Arizona Faculties Council – the coordinating body for the faculty governments of the three universities.

Except for ex-officio members and Student Regents, and as noted, the term of a Regent is eight years. As Regents finish their terms, new Regents are appointed by the Governor and confirmed by the Senate.

The Arizona Board of Regents
2020 North Central Avenue, Suite 230
Phoenix, Arizona 85004-4593
(602) 229-2500

ARIZONA STATE UNIVERSITY

Tempe Campus: P.O. Box 870112, 1151 S. Forest Ave., Tempe, AZ 85287-0112 www.asu.edu
(480) 965-9011 Fax (480) 965-1608

West Campus: 4701 West Thunderbird Road, P.O. Box 37100, Phoenix, AZ 85069-7100 (602) 543-5500

Downtown Phoenix Campus: 411 North Central Avenue, Suite 520, Phoenix, AZ 85004 (602) 496-1000

Polytechnic Campus: 7001 East Williams Field Road, Mesa, AZ 85212 (480) 965-9011

Financial Aid: Pell, Direct Loans, PLUS Loans, Perkins, AZLEAP, SEOG, FWS, BIA, SA Trust/University Grants

Accreditation: ASU is a Research I University and is accredited by the Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools. For programmatic accreditation, refer to the ASU General and Graduate Catalogs (<http://www.asu.edu/catalog/>)

2013/2014 Tuition: ASU Tempe & Downtown Tuition for a Full-time Student
Undergraduate Residents - \$4,742/Fall semester \$4,742/ Spring \$9,484/year
Undergraduate Non-residents - \$11,568/Fall semester \$11,568 Spring \$23,136/year
Graduate Students Tuition for a Full-time Student
Graduate Residents - \$5,000/Fall semester \$10,300 /year
Graduate Non-residents - \$12,643/semester \$25,286/year

NOTE: Part-time students should visit the web-site for tuition and fees

Admission Requirements: Please refer to the ASU General and Graduate Catalogs (<http://www.asu.edu/catalog/>) and the admission information website (<http://www.asu.edu/admissions/howtoapply/>)

Degrees Offered: ASU offers the BA, BS, BFA, MA, MBA, MS, JD and PhD degrees along with many professional degrees (such as the Bachelor of Science in Engineering (BSE), Master of Architecture (M.Arch) and Master of Public Administration (MPA). Additionally, ASU offers Post Baccalaureate Certificates (PBC), Undergraduate Certificates (UC) and Graduate Certificates (GC). Please refer to <http://www.asu.edu/programs/> for a complete listing of degree and program offerings.

PUBLIC COMMUNITY COLLEGES

The community college system makes up the largest segment of public higher education in Arizona. It was established in 1960 under the Arizona Revised Statutes, Title 15, Chapter, 6, now Title 15, Chapter 12. It consists of 10 districts each governed by a locally-elected board and located in 11 counties. The Maricopa Community College District is the largest of the community college districts with 10 of the 20 community colleges that operate on 34 campuses throughout the State. Because of geographical availability, tuition rates are generally lower than those of the universities and private postsecondary schools, and with the wide variety of degrees, certificates and programs of study offered, practically every resident of Arizona has easy and affordable access to educational services. The educational services provided by Arizona community colleges include:

- the first two years of university-level education—designed for transfer to any Arizona university;
- occupational training programs in technical, vocational and paraprofessional careers;
- general education opportunities;
- continuing education and job skill enhancement;
- academic counseling and job placement services; and
- cultural and community services programs for community enrichment.

Enrollment Requirements

As a prospective Arizona community college student, you must meet one of the follow criteria:

- be a graduate of an accredited high school;
- have successfully completed the General Education Development Certificate of High School Equivalence (GED);
- be an individual of 18 years of age who has not completed high school;
- be a transfer student in good standing from another college or community college; or
- be a high school student who wishes to take college courses.

Curriculum Matrix

This section includes a curriculum matrix which details the types of educational programs available, the colleges at which they are offered, and the types of degrees or certificates awarded.

Tuition and Fees

Tuition and fees for each college are listed under the individual college heading.

Financial Aid

Financial aid programs are available to qualifying students at each community college. Please see the individual college listing for program types and contact the financial aid office at the community college you wish to attend.

CURRICULA MATRIX FOR ARIZONA'S COMMUNITY COLLEGES

FALL 2013 ~ SPRING 2014

The following curricula matrix includes all academic and vocational programs offered by Arizona's community colleges during the academic year 2013 - 2014. This matrix indicates the type of degree or certificate awarded at the completion of each program. The approximate length of time required to complete each certificate is also shown.

Degrees:		Associate of Science	3	Certificates	46-60 semester credit hours	9
Associate of Arts	1	Associate of Applied Science	4	0-15 semester credit hours	6	Arizona General Education
Associate Transfer Partnership	2	Associate of General Studies	5	16-30 semester credit hours	7	(AGEC)
Associate of Business	2A			31-45 semester credit hours	8	Skill Center Certificate
						10
						11

LEGEND DEGREES, CERTIFICATES OR LICENSES

Associate of Arts - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate in Transfer Partnership - This degree is designed to meet the needs of the Maricopa Community College students transferring to public and private colleges and universities.

Associate of Business - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Science - This is a college degree and is similar to the Associate of Arts degree, except that the student's major emphasis is in science or engineering course work.

Associate of Applied Science - This degree is awarded to students who complete the requirements of a specified two-year program.

Associate of General Studies - This degree is awarded to students who complete an approved two-year program in general studies.

Certificate - A certificate is awarded to students who have completed an approved vocational program. The length of time necessary to complete certificate programs varies depending upon the achievement of the technical skills and competence necessary in a specific program.

License - A license is awarded to students who have completed a program of study approved by the licensing agency. These programs vary according to the specific licensure requirements.

Transfer Model in Arizona: Arizona General Education Curriculum (AGEC)

Arizona General Education Curriculum (AGEC) - Each of the Associate Degrees has thirty-five semester credits of study that comprise a "block" known as the AGECE. Because there are some differences in the mathematics and science requirements for each degree, there are three AGECEs.

AGEC-A: This is 35 semester credits that are part of the Associate of Arts degree.

AGEC-B: This is 35 semester credits that are part of the Associate of Business degree.

AGEC-S: This is 35 semester credits that are part of the Associate of Science degree.

Completion of the AGECE with a grade point average of 2.0 on a 4.0 scale guarantees your admission to the universities if you are a resident student. Non-residents must have a grade point average of 2.5 on a 4.0 scale. Completion of the AGECE also means that you will have met the lower-division general studies requirements at any of the universities for the majors that articulate with that AGECE.

Note: The Community College Matrix is not available in the on-line Arizona College & Career Guide, however by doing a search of the programs of study, the same results will be obtained. You may also view the community college of your choice and go to their individual web site to obtain course listings.

Communiversities

What is the Communiversality @ Surprise?

The Communiversality @ Surprise is a partnership of higher education institutions dedicated to providing students with the opportunity to continue their education and earn progressive degrees. Through the Communiversality @ Surprise, students can pursue degrees in six educational pathways, all in one convenient location!

The six pathways are business/management, education, healthcare, information systems, liberal arts and public safety. More than 40 educational programs are offered in a variety of course formats, including in-person, online and hybrid. Students are able to complete certificates, associate degrees, bachelor's degrees and Master's degrees through the partner institutions

Educational Partners

- Rio Salado College
- Glendale Community College
- Phoenix College
- Ottawa University
- Northern Arizona University

Communiversality @ Surprise

15950 N. Civic Center Plaza, Surprise, AZ 85374

Phone: (480)384-9000

Funding: Financial Aid - PELL, AZLEAP Federal Loan Programs, Scholarships, Other Federal Programs

Tuition: varies from school to school and depend upon whether you are pursuing an undergraduate or graduate degree

Private Postsecondary Educational Institutions

Arizona State Board for Private Postsecondary Education

Private Postsecondary Educational Institutions licensed by the Arizona State Board for Private Postsecondary Education are shown on the following 53 pages. The Board licenses and regulates 242 private postsecondary educational institutions operating vocational and degree programs. These private universities, colleges, career colleges, and vocational schools annually serve approximately 593,926 students. Formerly, students were only Arizona residents, however, with e-learning, Arizona schools now provide training to students across the nation and around the world. The Board acts on license applications, determines compliance, investigates complaints and violations, takes disciplinary action, confiscates and retains student educational records from closed institutions, provides students with access to their educational records, and administers the Student Tuition Recovery Fund, which provides financial restitution to students injured by private postsecondary institutional closures.

Arizona State Board for Private Postsecondary Education Goals:

- To ensure legal operations, ethical practices and quality education in the private postsecondary sector.
- To ensure public access to reliable and valuable alternative higher educational opportunities and vocational training options.
- To assist those injured by private postsecondary educational institutions.
- To collect or secure monies sufficient to provide for student financial restitution.
- To provide equitable financial restitution, in a timely manner, to students financially injured as a result of a school closure.

For more information on this board, visit their website at <http://azppse.state.az.us/>. For cost of attendance for these institutions, please call the admissions office or visit their websites.

Albright

COLLEGE

Take the next step to see where your future could take you...

Albright DCP courses are accelerated, meaning that the work is condensed into a five to seven week period. All of the degree programs are designed to be completed in 22-24 months of instruction.

MEET KAY BURKY

major: organizational behavior/applied psychology
profession: senior vice president, director of corporate training

“Never underestimate the power of an education.”

MEET LYNNETTE & ROBERT CLINTON

major: information sciences

lynnette's profession: manager, revenue cycle systems;

robert's profession: sr. network engineer, mobility practice lead

“In order to go further, I needed my degree. Albright gave me the extra boost I needed.”

What programs will be offered?

- Information Systems
- Organizational Behavior/Applied Psychology
- Business Administration
- Program Highlights

Students should have an Associates degree or equivalent college credits.

The program is designed to meet the needs of adults who wish to pursue a college education while working

Classes meet for four hours, one night a week, leaving students free to complete the remaining coursework whenever it is most convenient for them.

“One Great Plan - Three Simple Choices”

The State of Arizona’s 529 plan offers a wide variety of choices through three financial institutions. Choices include CD’s, mutual fund options, indexed funds, and age-based portfolios.

Begin saving for college today...

Arizona 529 Plan Savings Benefits

- Annual contributions to the Arizona 529 Plan are state income tax deductible up to \$2,000 per person and \$4,000 per married couple
- Earnings grow federal tax deferred
- Savings can be used at accredited colleges & universities, vocational institutions and some foreign colleges
- Ability to save with only \$15 a month
- Option to change beneficiaries

Arizona Family College Savings (529) Program

AVIATION SCHOOLS

Arizona aviation schools offer various courses to prepare students to qualify for pilot licenses in fixed wing aircraft, helicopters, gliders and air balloons. The requirements for these licenses are established by the Federal Aviation Administration (FAA). The FAA also approves schools which meet established standards of instruction in fixed and rotorcraft. The school listed below are approved 14 CFR Part 141 Pilot Schools. Prospective students should obtain information concerning these requirements by contacting:

Federal Aviation Administration, Flight Standards District Office
17777 North Perimeter Drive, Suite #101, Scottsdale, AZ 85260 (480) 419-0330 Fax (480) 419-0800
www.faa.gov

Students should contact each school for programs offered, length of program, and cost.

COSMETOLOGY SCHOOLS

All schools are licensed by the Arizona State Board of Cosmetology and accredited by NACCAS unless noted. All schools provide courses which prepare graduates to take the Arizona State Board of Cosmetology licensing examination in either cosmetology, manicuring or student instructor.

The standard enrollment requirements for:

Cosmetology or Manicuring: Two years of high school or GED;
Student Instructor: Current Arizona cosmetology license, one year of experience, high school graduate or GED.
Course length: Cosmetology - 1,600 hours, Nail Technology - 600 hours, Student Instructor - 650 hours,
Aesthetician - 600 hours.

Refresher Courses for Cosmetologist: Most cosmetology schools offer brush-up and refresher courses for those with previous cosmetology training and experience. Contact the individual school for requirements and costs.

The standard curriculum for each course may be obtained from:

Arizona State Board of Cosmetology, 1721 E. Broadway, Tempe, AZ (480) 784-4539

REAL ESTATE SCHOOLS

Arizona real estate schools present two basic categories: those which qualify students to meet the licensing requirements set forth by the Arizona Department of Real Estate, and other real estate related courses. The requirements for an Arizona real estate license are:

Real Estate Salesperson: 18 years of age, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Real Estate Broker: 18 years of age, 36 months active, licensed, experience within the past five years, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Professional Continuing Ed: Consists of 24 hours of classes in real estate related, professional subjects, completed every 2 years.

Before a real estate school can issue credit to meet the Department of Real Estate requirements, the school must receive a Certificate of Approval issued by the Department. Prospective students may obtain information on approved schools by contacting:

Arizona Department of Real Estate, 2910 North 44th Street, Suite 100, Phoenix, AZ 85018 (602) 468-1414

TRAINING, EMPLOYMENT and SKILL CENTERS

There are a number of employment and training centers in Arizona providing counseling, training and educational services. Services provided vary, but generally include vocational counseling and training, job referral and placement, basic education and GED preparation, and English as a Second Language. A few employment and training centers offer on-site vocational skills training at no charge and these are noted. Others refer individual students elsewhere for training, depending upon the student's particular needs, with training fees paid by the referring agency. In either instance, training is generally open-entry and open-exit to allow students to enter class when there is an opening, to progress at their own pace, and to graduate upon attaining the required proficiencies. Interested students should contact the employment and training centers for specific information on the services they provide.

ADULT BASIC EDUCATION AND THE GENERAL EDUCATION DEVELOPMENT (GED)

Arizona Department of Education, (602) 258-2410 Fax (602) 258-4977 www.ade.az.gov/adult-ed
 The Arizona Department of Education sponsors programs that offer free classes to adults seeking to improve their communication, reading and math skills. The programs are available to individuals 16 years of age or older who are not currently enrolled in any school. Classes include Adult Basic Education, English for Speakers of Other Languages (ESOL), Citizenship and preparation for the General Educational Development (GED) test. The department also provides GED test sites in more than 40 locations throughout the state. Visit the web site for more information.

Arizona Tech Prep is part of a National educational initiative that involves restructuring traditional curricula and introducing new teaching approaches at the secondary and post-secondary levels. Viewed as one of the most innovative and effective educational reform efforts in American history, Tech Prep connects learning to career pathways and provides students with the knowledge, skills and behaviors they need to compete successfully in the technologically advanced workplace of tomorrow.

Tech Prep provides each student with:

- A career pathway with an identified sequence of courses which leads to employment, employability and technological skills.
- Advanced occupational training identified in partnership with business and industry.
- Articulated programs leading to certification and/or a degree.
- A curriculum integrating academic and occupational learning and application.

There are eleven Tech Prep consortias in the state of Arizona

ARIZONA'S WORKFORCE DEVELOPMENT SYSTEM

www.doleta.gov/atels_bat/

Arizona Department of Commerce, Office of Workforce Development, 1700 West Washington, Suite 600, Phoenix, AZ 85007 (602) 771-1100

In Arizona, business needs drive workforce development. The Arizona Department of Commerce provides multiple opportunities that help companies link employee development directly to business strategy. Workforce Development programs include:

APPRENTICESHIP TRAINING

<http://www.azcommerce.com/Workforce/Apprenticeships/Home.htm>

Call 602-771-1183; 602-771-1184; or 602-771-1182

Apprenticeship is a proven strategy that combines on-the-job training with related classroom instruction to produce highly skilled workers that meet the demands of employers competing in a global economy. Registered apprenticeship is a training system that produces highly skilled workers that meet the demands of employers competing in a global economy.

Private and public sectors – individual employers, employer associations or joint labor/management sponsors, operate registered apprenticeship programs. Program sponsors pay most of the training costs while also paying progressively increasing wages to apprentices as they gain skills. Registered apprenticeship programs can be competency based or time based depending on program sponsor needs.

Arizona has more than 100 registered apprenticeship programs in such industries as agriculture, forestry, and fishing; mining; construction; manufacturing; transportation, communications, electric, gas, and sanitary services; services; and public administration. More than 3,100 apprentices are currently registered in apprenticeship programs in Arizona.

ARIZONA JOB TRAINING PROGRAM

602-771-1219

<http://www.azcommerce.com/Workforce/JobTraining/Home/htm>

The Arizona Job Training Program supports the design and delivery of training plans that meet unique industry standards and challenges. Under the "Net New Hire" portion of the grant program, businesses can apply for grants that return up to 75% of the costs of training net new employees in jobs that meet wage criteria. The "Incumbent Worker" portion of the grant program will allow for training that upgrades the skills of existing employees. The Incumbent Program can reimburse employers up to a maximum of 50% of allowable training costs. Visit the website for more information.

ARIZONA WORKFORCE CONNECTION

<http://www.azcommerce.com/Workforce/Connection/Home.htm>

Arizona Workforce Connection is the statewide system of workforce development partners – providing free services to employers who seek access to skilled new hires or existing worker training resources.

Arizona employers profit from services tailored for unique business needs. Through a network of One Stop Centers and online services, Arizona Workforce Connection provides:

- Seamless Access to Workforce Resources
- Employee Recruitment
- Labor Market Information
- Job Training and Hiring Tax Credits
- Customized Training and Skills Upgrading
- Solutions to Common Employee Barriers
- Pre-Layoff Assistance

See Arizona's One Stop Career Centers on the following page.

<https://www.arizonavirtualonestop.com>

ARIZONA'S ONE-STOP CAREER CENTERS

DES, One-Stop Career Center Project, P.O. Box 6123, Site Code 901A, Phoenix, AZ 85005 (602) 542-1250 Fax (602) 542-2273

One-Stop Centers are a single point-of-entry to a network of employment and educational programs and providers in each community. They help job seekers access the tools they need to manage their careers through high quality information and services and help employers find skilled workers. Information about job vacancies, career options, student financial aid, relevant employment trends, and instruction on how to conduct a job search, write a resume, or interview with an employer is available to anyone in the United States.

Each One-Stop Center integrates the services of the following federally-funded programs, through staff co-location, coordination of services, and integration activities:

- Programs authorized by Title 1 of the Workforce investment Act of 1998.
- Job Service
- Adult Education and Literacy
- Vocational Rehabilitation
- Welfare to Work
- Senior Community Service Employment Program
- Postsecondary Vocational Education
- North American Free Trade Agreement (NAFTA)/Transition Adjustment Assistance (TAA)
- Veterans' Employment & Training Services
- Employment and Training activities - Community Services Block Grant Act
- Employment and Training activities - Housing and Urban Development (HUD)
- Unemployment Insurance

The East Valley Institute of Technology (EVIT) is Arizona's first regional technological education district. All programs at EVIT are occupation-specific and taught by industry-experienced professionals using state of the art equipment. EVIT maintains partnerships with business and industry throughout the East Valley to ensure that training programs provide students with job skills necessary for employment. Visit the website for information on the following programs.

EMPLOYMENT & TRAINING FOR OLDER WORKERS

<https://www.azdes.gov/aaa>

DES, Aging and Adult Administration, P.O. Box 6123, Site Code 950A, Phoenix, AZ 85007 (602) 542-4446

The Arizona Aging & Adult Administration (A&AA) is responsible for the administration of a statewide system of social services and programs for the elderly. A&AA administers the Senior Community Service Employment Program which is funded through Title V of the Older Americans Act. It provides employment and training opportunities for persons over 55 years of age or older who have incomes at or below the federally established poverty level. Qualifying requirements are: Age 55 or older, Must be an Arizona resident, Current income does not exceed 125% of the federal Office of Management and Budget poverty level.

GENERAL EDUCATION DEVELOPMENT (GED)

To enter most programs of study, a student must have a high school diploma or a General Education Development (GED) certificate. The GED is a national test accepted by most employers and postsecondary schools as an equivalent to a high school diploma. For more information on the GED and to find the test center closest to you, call the U.S. Department of Education at:

1 (800) 62-MY-GED
1(800) 626-9433

Additional GED information may be obtained by calling:

Western Undergraduate Exchange (WUE) 2013 - 2014

What is WUE?

WUE is the Western Undergraduate Exchange, a program coordinated by the Western Interstate Commission for Higher Education (WICHE). Through WUE, students in western states may enroll in participating two-year and four-year public college programs at a reduced tuition level: up to 150 percent of the institution's regular resident tuition. In all cases, WUE tuition is considerably less than nonresident tuition.

Which States Participate?

For academic year 2013- 2014, resident students from the following states may participate if they meet eligibility requirements:

NOTE: Residents of Hawaii may enroll as WUE students in four-year programs only.

Programs Available

Virtually all undergraduate fields are available to WUE students at one or more of the participating colleges and universities. Some institutions have opened their entire curriculum on a space-available or first-come, first-served basis. Others offer only designated programs at the discounted WUE

Alaska	Colorado	Montana	North Dakota	Utah
Arizona	Hawaii	New Mexico	Oregon	Washington
California	Idaho	Nevada	South Dakota	Wyoming

rate.

WUE Bulletin

To learn of the wide array of programs available, consult *WUE Online*, our new searchable database, located at www.wiche.edu/wue. For additional details, follow the links to the receiving institutions' websites.

Eligibility

Many institutions require evidence of academic performance, such as ACT/SAT test scores or high school GPA, or place other conditions on WUE enrollment. Consult your high school counselor or *WUE Online* for details.

Application and Admission

Apply directly to the institution(s) of your choice for admission and WUE tuition status. Mark prominently on the application form that you seek admission as a WUE student.

Further Information

Further information about specific programs in WUE may be obtained from the admissions office of participating institutions. Information about student eligibility and the operation of the program in any state may be obtained from the home state WUE Contact Offices. The Certifying Officer for Arizona can be contacted at:

WICHE Student Exchange Program
Arizona Board of Regents
2020 North Central Avenue, Suite 230
Phoenix, Arizona 85004
(602) 229-2500

General questions may be addressed to Student Exchange Programs, Western Interstate Commission for Higher Education, P.O. Box 9752, Boulder, Colorado 80301-9752; or call (303) 541-0200.

NOTES

Arizona Commission for Postsecondary Education

...expanding access and increasing success in postsecondary education

Maximize student financial assistance available to students and families

- Administer more than 3,700 state/federal grants representing more than \$ 3.5M annually for students attending Arizona public and private universities. More than 3,700 grants help low-income students
- Hold in trust more than \$769M in assets, representing more than 68,000 accounts in the Arizona Family College Savings (529) Program; oversee three trusted and experienced financial institutions
- Administer the Arizona Leveraging Educational Assistance Partnership (AzLEAP), College Access Challenge Last Stretch Scholarship and the Math, Science, and Special Education Teacher Loan Forgiveness (MSSE) student financial aid programs
- Operate the secure AZ Grants State Student Financial Aid web portal providing access to state student aid grants, scholarships, forgivable loan programs and loan repayments
- Manage student loan repayments for the PEG, PFAP and MSSE forgivable loan programs

Provide a forum where all sectors of postsecondary education come together

- Identify common problems and opportunities that cross sectors of postsecondary education through a Commission comprised of senior executives from private and public education
- Provide collaboration/partnership opportunities, such as the *Developing Arizona's Human Capital* conference where educators, policy makers, and business leaders come together to focus on higher education issues
- Sponsor the AMEPAC research center producing policy studies such as *To Learn and Earn*

Help student and families plan, enter, and succeed in postsecondary education

- Host websites receiving over 130,000 unique visits annually that provide current and relevant information on college-going and financial assistance
- Oversee the Arizona College Access Network (AzCAN) with goals of increasing the capacity of organizations, establishing expected standards of performance and promoting effective evaluation
- Coordinate the annual statewide College Goal Sunday Financial Literacy Initiative which over the past 16 years has assisted more than 41,000 students and parents complete the FAFSA
